HEADACHES AND CRANIOFACIAL PAIN – A ROCABADO-BASED APPROACH

This two-day, hands-on course led by Dr. Jenny Hobson is designed for physical therapists and dental professionals seeking an evidence-informed approach to diagnosing and treating craniofacial pain and headaches. Built on Dr. Mariano Rocabado's principles, it emphasizes interdisciplinary collaboration in managing TMD, cervical spine dysfunction, and related disorders through functional assessment, manual therapy, movement re-education, and team-based care.

Key Topics Include:

- 💡 Functional relationship between the jaw, neck, and skull
- 💡 Assessment of TMJ and upper cervical dysfunction
- 💡 Pain mapping, mandibular rest position, and motor control
- 💡 Manual Techniques including the Rocabado Roll Back
- 💡 PT-dentist collaborative patient care strategies
